

March 17, 2026

To Whom It May Concern:

This letter confirms that **Miovision's video detection products**, specifically the **Miovision Core® Detection System**, comply with the Buy America final assembly requirements today and will comply with the 55% requirement before October 1, 2026, as per FHWA guidelines. This correspondence is intended to address any questions regarding their eligibility for federally funded lettings.

For decades, Miovision has worked with State DOTs, providing innovative products to help modernize transportation infrastructure and achieve key objectives related to safety, efficiency, and sustainability. Miovision, headquartered in Kitchener, Ontario, Canada, develops and manufactures intelligent transportation solutions and sells them throughout the United States, either through U.S.-based authorized distribution partners or our U.S. subsidiary, Miovision Technologies US, LLC ("Miovision USA"). Miovision USA is headquartered in St. Paul, Minnesota, and has over 100 employees located across 28 states.

The final assembly of the Miovision Core Detection System provided to our U.S. end users is completed by our contract manufacturer, **Creation Technologies**, at their facility located at 328 Silver Hill Road, Newark, NY 14513. More information about Creation Technologies can be found at <https://www.creationtech.com/>.

Additional documentation from Creation Technologies, confirming their relationship with Miovision and detailing the final assembly of the Miovision Core Detection System at their Newark facility, can be provided upon request.

If you require additional information to substantiate that our products comply with the Buy America final assembly requirements, please don't hesitate to contact me directly at your convenience.

Sincerely,

Kris Rasmussen, AVP, Manufacturing
