

Miovision Opticom™

Revolutionizing Emergency Response

Get There Faster, Every Time.

Boost the safety and efficiency of your emergency response teams with Miovision Opticom and Whelen's seamlessly integrated cloud-based emergency solutions.

Every second counts for you. **Opticom Emergency Vehicle Preemption (EVP)** in partnership with the **Whelen Cloud Platform** gets you the green light to help you improve emergency response times and limit intersection crashes. Emergency response vehicles equipped with the Whelen Vehicle Safety Gateway (VSG) can seamlessly integrate with the Opticom Application. Our combined expertise of over 50 years in public safety puts you in trusted hands. Let our experts help you quickly deploy our preemption solutions with minimal hardware while you focus on serving your community.

Rapid Deployment

Quick and easy implementation in emergency vehicles.

Cost-Effective

Minimal hardware, maximum efficiency.

Enhanced Safety

Faster response times for emergency services.

Trusted by cities across North America

"Prior to having our Miovision Opticom installed, our emergency responders were constantly battling heavy traffic at intersections and along the interstate... Since the implementation of the Miovision Opticom product, we've reduced the number of emergency vehicle accidents while they're responding to an emergency call. In the prior year, we had six accidents. Since we've installed this product we've had zero accidents"

Chief Jeff Barnett,
Kyle, TX Police Department
