

Miovision AI Studio

Your Vision. Instantly Built. Powered by Mateo.

Imagine having the exact traffic safety, operational, or reporting tool you need, exactly when you need it. AI Studio makes this a reality. By translating natural language requests into fully functional, interactive workspaces, AI Studio empowers traffic engineers, planners, and agency leadership to build custom views in seconds.

Why Choose AI Studio?

Traditional tools require complex configurations, rigid setups, and months of waiting on technical backlogs. AI Studio bypasses the friction, giving you immediate access to the insights you need to keep your community safe and moving.

Total Flexibility, Zero Friction

Simply describe what you need in natural language, and watch AI Studio build it instantly.

Immediate Actionability

Create highly specific tools tailored to your agency's daily goals, from quick executive briefs to deep-dive corridor analytics.

Built for Your Mobility Data

Effortlessly connect your telemetry, signal performance, safety, and community feedback data into clean, interactive workspaces.

Secure Collaboration and Instant Reporting

Share read-only workspaces organization-wide for team iteration, and easily export your custom views to PDF for council-ready reports.

Possibilities You Can Benefit From Today

Here is a look at just some of the custom workspaces you can generate to streamline your agency's workflow. These examples only scratch the surface of what is possible—if your team can imagine the application, Mateo can compile it in real time.

Improved Community Responsiveness Citizen Complaint Dashboards

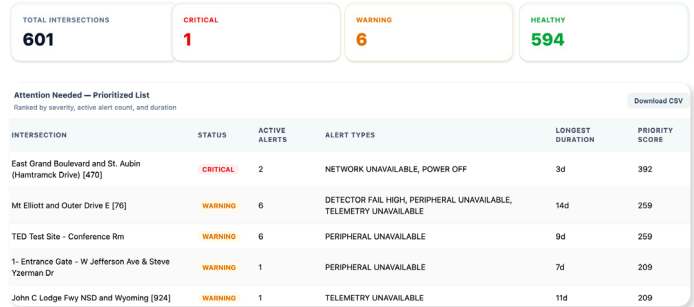

Consolidate and prioritize traffic-related 311 and community complaints on an interactive map. Triage signal timing, pothole, and signage issues in real time to build public trust and resolve chronic neighborhood mobility issues faster.

Status	Summary	Address	Date	Votes
Open	Potholes	19421 Fleming St Detroit, Michigan, 48234	2026-06-09	1
Open	Street Light Pole Down	7830 W Vernor Hwy Detroit, MI, 48209, USA	2026-06-09	1
Open	Potholes	W Outer Dr & Santa Maria St Detroit, Michigan, 48219	2026-06-09	1
Open	Potholes	11479-11699 Mt Elliot Ave Detroit, Michigan, 48212	2026-06-09	2
Open	Traffic Complaints	14034 Archdale St Detroit, Michigan, 48227	2026-06-09	2

Possibilities You Can Benefit From Today (cont.)

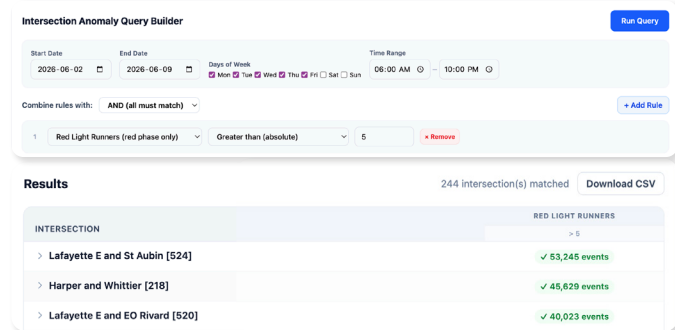

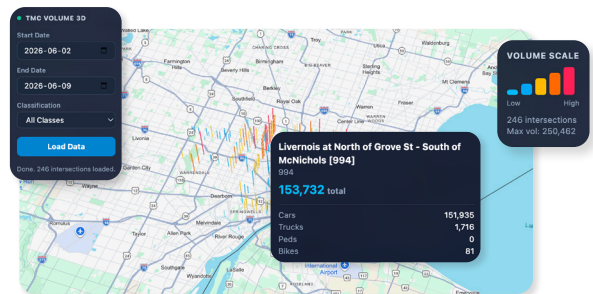

Streamlined Daily Operations Proactive Maintenance Dashboards

Start every morning with an operational briefing. View a prioritized list of issues, track active signal alerts and obscured cameras, then dispatch maintenance crews immediately to the intersections that require attention to keep traffic flowing.

High-Impact Leadership Visuals 3D Traffic Volume Maps

Turn complex traffic volumes and vehicle counts into intuitive 3D visualizations. Instantly spot highly congested corridors and present compelling, easy-to-understand insights to city council and non-technical stakeholders.

Bring Your Ideas to Life

AI Studio takes the complexity out of data management, putting the power of custom views directly into your hands. Whether you need a daily operational dashboard or a quick visual report for a council meeting, you have the power to create it in seconds.

If you can type it, you can build it.
